

# Common dragonflies of George Rogers Clark Park

**Twelve spotted skimmer**

*(Libellula pulchella)*

Alternating black and white spots

**Widow skimmer**

*(Libellula luctuosa)*

extended dark spot with white tip

**Common white tail**

*(Plathemis lydia)*

Lacking white on wings

**Black Saddle bags**

*(Tramea lacerata)*

Dark spot on wings, easiest seen from underside

**Blue dasher**

*(Pachydiplax longipennis)*

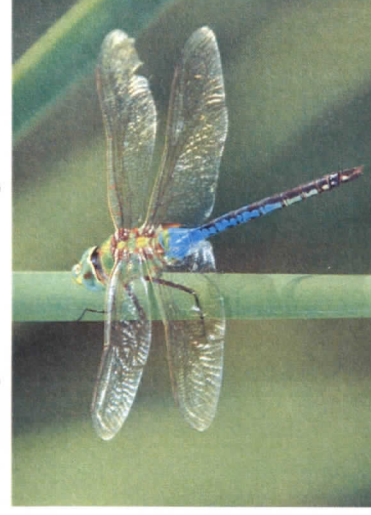

Distinct black tip to abdomen

**Common green darner**

*(Anax junius)*

Larger than most dragonflies

**Amberwing**

*(Perithemis tenera)*

Usually only found in lakes with fish, very distinctive

**Eastern Pondhawk**

*(Erythemis simplicicollis)*

Males and females look very different
